

LA BOUGIE

For The Body

A World Of Difference

There is a world of difference between a La Bougie perfume and the mass-produced fragrances of the High Street. Created entirely by Lucy Hagerty in our West Cork perfumery using prized aromatics and botanical oils from around the world. With fragrance at the heart of all that we do, each product captures that elusive quality which is the hallmark of La Bougie, and is produced with thoughtful craftsmanship, by us, for you.

FOR THE BODY

MISSION FIG

Parched Earth / Fig Leaves / Blond Wood

“The old gnarled fig tree in the garden of my family home in Tuscany takes centre stage in this fragrance. Whether lunching under its canopy or reading a book in the dappled sunshine, this tree has inspired me to create my iconic perfume.”

- Lucy Hagerty, Perfumer -

DESERT ROSE

Rose Maroc / Teak / Oud

“Every Perfumer needs a rose fragrance. So I travelled to a hidden valley between the peaks of the high Atlas Mountains and the Sahara Desert to source the finest rose oil in the world and take part in the harvest of the exquisite Damask Rose. These roses are intoxicating, intense and honey-like and adding a note of Oud and Teak captures the middle eastern allure of Morocco”.
